Description
I created this website to make it easier for people to see my abilities and expertise. On this website there are a CV that can be downloaded, my experience in making projects, and my contact. In this project, I made it myself, starting from the UI and UX design, the code (front-end developer), etc.

000webhostapp.com/

Description
This website is the final project for semester 2 of the Human and Computer Interaction course given by the lecturer. I created this website together with some of my group friends, there are Jovanka, Ricky, Kenny, and Hogan. On this website, we create a place for people to participate in social activities. In addition, we also make it easy for the public to be able to learn new things because we provide learning tutorials, such as soft skills and hard skills.

DanBam/

Description

This website is the lab project for semester 2 of the Human and Computer Interaction course. In this project, I created a website that can provide information regarding the menu, the history of the restaurant, and the location of the restaurant, called DanBam. I made this project with my two friends, Ignatius Jovanka and Ricky.

Medstore Prototype

Year Accomplished
2022

Role/Position
UI/UX Designer

Publication Link
https://www.figma.com/file/grCKtb3PRJ08Vp EGPbw6nf/Multimedia -Project

Description

In this project, I created an application prototype for the final Multimedia Systems project. For this project, I did it myself. I create UI and UX Design for a website called Medstore, where this website is a place for someone to buy medicine and vitamins by online.
